PROFESSIONAL SUMMARY

BCA undergraduate specializing in Data Science at VIT Vellore with hands-on experience in **QA automation, full-stack development, and AI-powered applications**. Skilled in C, C++, Python, and Java, with practical experience building automated test suites, RESTful applications, and LLM-integrated platforms. Strong foundation in software engineering, testing, and problem-solving, with experience leading technical initiatives and building real-world projects.

EDUCATION

Vellore Institute of Technology (VIT), Vellore *Expected 2027*
Bachelor of Computer Applications (BCA), Specialization in Data Science • **CGPA: 9.5 / 10**

ACHIEVEMENTS

- Two-Time Academic Rank Holder, VIT Vellore - recognized for sustained top academic performance.
- Recipient of the Merit Scholarship, awarded for academic excellence.

TECHNICAL SKILLS

Languages: C, C++, Python, Java **Testing:** Playwright, Selenium, pytest, Cypress, API Testing, Automation
Development: JavaScript, React, Node.js, Express.js **Databases:** MongoDB, SQL, Redis **Tools:** Git, GitHub, Docker, Postman
Concepts: Data Structures and Algorithms, Operating Systems, Networking, Software Engineering

EXPERIENCE

Quality Assurance Engineer Intern *OneTuza - Mekhos Technology [Dec 2025 – Mar 2026]*

- Ran automated + manual tests on core web flows (Playwright, Selenium, pytest).
- Logged and reproduced 150+ bugs; ran structured bug-tracking workflows.
- Built automation suites that replaced manual regression cycles.
- Triaged issues and validated builds with developers before deployment.

PROJECTS

QALity - AI-Powered Code Review & QA Automation Platform

- Built a MERN + LLM platform that analyzes GitHub PRs and generates AI code reviews + prioritized test plans.
- Integrated GitHub REST API and LLMs to flag bugs, security risks, and edge cases from code diffs.
- Built a RESTful backend (MongoDB) with a React + Tailwind frontend.
- **Tech:** React, Vite, Tailwind, Node.js, Express, MongoDB, GitHub API, LLMs

SkipLine - Smart Canteen Management System

- Built a role-based canteen platform (student / chef / admin).
- Added prepaid wallet, monthly allocation, spending controls, and live order tracking.
- Built JWT auth, REST APIs, and Excel-based bulk onboarding.
- **Tech:** React, Vite, Node.js, Express, MongoDB, JWT authentication

LEADERSHIP & INVOLVEMENT

Technical Head *Innovators Quest (Technical Club)*

- Built and maintained the club website and technical infrastructure.
- Ran a GSoC preparation workshop simulating real open-source contribution.
- Organized Cyber Shield X ethical hacking workshop (500+ attendees).
- Judged and mentored SustainAthon and BiteToByte.
